Special Indian Lake Association Informational Meeting

**- Saturday, May 28, 2022 - 9:30 a.m. Eastern Time -
Indian Lake Firehouse**

Mark your calendars! → Please join your ILIA board members to understand how the creation of the Indian Lake Government Lake Board (ILGLB) has impacted our lake improvement association to act as stewards on behalf of our beloved Indian Lake.

We will share with you the history of the actions the Silver Creek Township (SCT) took to create the ILGLB, their subsequent refusal to pay valid weed management bills from our SAD funds established for weed management and the steps we are taking to work collaboratively with our ILGLB.

We know this is Memorial Day weekend, but we have heard from many of you that you want to understand how “things are going to work” going forward. Let’s start talking early in the season to give us the best opportunity to act on behalf of Indian Lake.
